

**Accident Compensation Corporation (ACC).**

**New Zealand is the only country in the world where people including visitors are automatically protected with comprehensive, 24 hour, no-fault personal injury cover.**

ACC in New Zealand is like an insurance policy which automatically covers everyone, including visitors, who's **injured** in an accident while they are in New Zealand.

They provide treatment and other support if you are injured in an accident. It doesn't matter where it happened, what you were doing or who was at fault. ACC support is available to all visitors who are injured while in New Zealand.

The help you get from ACC depends on your injury and your situation. Most of the costs associated with treating your injury will be covered by ACC, including ambulance services and a good part of the cost of your doctor, physio, hospital treatment, surgery, x-ray and prescriptions

**What is not covered**

Illness is not covered. ACC covers injuries and associated injury related problems.

The injury has to have happened in New Zealand. You're not covered if you're injured traveling to New Zealand aboard a boat or plane or getting on or off it.

ACC only covers treatment and rehabilitation costs while you are in New Zealand

**It is not travel insurance**

ACC is not a replacement for travel insurance. It doesn't cover things like disrupted travel plans and lost deposits, assisted or emergency travel home or travel for a relative. Also ACC doesn't cover illness.

These are all things that good travel insurance will cover and we recommend it for anyone visiting New Zealand.
